

## MICRO SWITCH ${ }^{\text {TM }}$ Premium Large Basic Switches

MICRO SWITCH ${ }^{\text {TM }}$ premium large snap-action series are designed for repeatability and enhanced life. These series of precision switches feature application-specific characteristics. From double-break circuitry to handling power duty electrical loads, MICRO SWITCH ${ }^{\text {TM }}$ premium large snap-action series switches are suitable for a variety of applications.

DT Series switches consist of two independent single-pole double throw (dpdt) contacts in one housing controlled by an integral common actuator. The DPDT contact configuration provides a contact for the control circuit and a different contact for the signal or auxiliary circuit.
MT Series magnetic blow-out switches are designed to switch high-capacity ( $125 \mathrm{Vdc} / 250 \mathrm{Vdc}$ ) electrical loads. An integral magnet around the contact gap deflects the arc away from the contacts, extending switch life. Vents between the cover and housing allow the hot gas to escape.

Easy to gang mount, MN Series single pole double throw double-break switches are for use with limit or control mechanisms on machine tools, presses, or other industrial equipment.

MICRO SWITCH ${ }^{T M}$ TB Series miniature single pole double throw double break switches offer a means of controlling circuits similar to the MN series switches except in a smaller package.

## What makes our switches better?

- Industry-leading temperature ranges of $-55^{\circ} \mathrm{C}$ to $85^{\circ} \mathrm{C}\left[-67^{\circ} \mathrm{F}\right.$ to $\left.185^{\circ} \mathrm{F}\right]$
- Switches with DPDT circuits (each pole electrically independent) can controll two independent circuits in small package size eliminating need for a second switch or a twopole relay, thereby reducing total system cost
- High capacity Vdc available for power duty control of electrical
 loads, such as dc motors and dc solenoids

YEARS OF PERFORMANCE - NO MATTER THE ENVIRONMENT MICRO SWITCH ${ }^{\text {TM }}$ DT and TB Series feature industry-leading temperature ranges of $-55^{\circ} \mathrm{C}$ to $85^{\circ} \mathrm{C}\left[-67^{\circ} \mathrm{F}\right.$ to $\left.185^{\circ} \mathrm{F}\right]$ for years of reliable performance in the harshest of conditions. Honeywell's large basics feature rugged construction and enhanced mechanical life.

## FLEXIBILITY OF PRODUCT CHARACTERISTICS

Honeywell's large basics boast a broad and deep array of product options and characteristics to meet a wide variety of application and system requirements. A range of accessories, including brackets and enclosures, is also offered.

## Control two independent circuits in one small package

## POWER DUTY CONTROL

High capacity dc available for power duty control of electrical loads such as those found on dc motors.

## ONE SMALL SWITCH OFFERS BIG BENEFITS

DPDT circuits (with each pole electrically independent) are able to control two independent circuits in small package size.

## Power duty control options

## EASY INSTALLATION REDUCES OVERALL COSTS

The switch's enlongated mounting hole allows for easier, more accurate mounting.

## REDUCE TOTAL SYSTEM COST

Unique design options prevent the need for two individual switches/levers or two-pole relays which can help reduce total system cost.

## EQUIPMENT CERTIFICATION OPTIONS

Agency coverage to assist in equipment certification.

## MILITARY APPROVALS

MIL-PRF-8805 DPDT switches available for military specified applications.

## Potential Applications

## MANUALLY OPERATED DEVICES

Controls start-stop or on-off functions on equipment for drill presses, conveyors

## WELDERS

Often used in dc control circuits

## DC MOTOR \& SOLENOID CONTROL CIRCUITS

Utilized for dc control in back-up control systems

## INDUSTRIAL EQUIPMENT

Used in fork lifts with a DPDT contact for control contact \& signal contact

## MACHINE TOOLS

Can be used to control circuits such as start, stop, or jog functions

## MICRO SWITCH ${ }^{\text {TM }}$ Premium Large Basic Switches

Table 1. Specifications

| Characteristic | DT Series | MT Series | MN Series | TB Series |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
| Differentiator | same size as the MICRO SWITCH ${ }^{\text {TM }}$ BZ Series, but double pole double throw (DPDT) | designed for power duty dc loads | double-break contacts | smaller double-break package |
| Use | design permits several different wiring configurations | control circuits to switch high capacity ( 125 Vdc and $250 \mathrm{Vdc})$ systems | limit or control mechanisms | limit or control mechanisms |
| Ampere rating | 10 A | 10 A | 15 A | 10 A |
| Circuitry | DPDT | SPDT | SPDT DB | SPDT DB |
| Operating force | $3,34 \mathrm{~N}$ to $5,56 \mathrm{~N}$ <br> [12.0 oz to 20.0 oz ] max. | $3,34 \mathrm{~N}$ to $5,00 \mathrm{~N}$ [12 oz to 18 oz ] max. | $\begin{gathered} 1,95 \mathrm{~N} \text { to } 3,1 \mathrm{~N} \\ \text { [7.0 oz to } 11.0 \mathrm{oz} \text { ] } \end{gathered}$ | $1,95 \mathrm{~N}$ to $3,89 \mathrm{~N}$ [ 7 oz to 14 oz ] max. |
| Termination | screw | solder, screw | screw | solder, screw |
| Actuator | pin plunger, straight plunger, straight lever, reversed lever, roller lever | pin plunger, straight lever, roller lever, flexible leaf, flexible leaf with roller | pin plunger | pin plunger |
| Voltage | $125 \mathrm{Vac}, 250 \mathrm{Vac}, 28 \mathrm{Vdc}$ | $125 \mathrm{Vdc}, 250 \mathrm{Vdc}$ | 480 Vac | 250 Vac |
| Agency approvals | UL recognized; CSA certified, MIL-PRF-8805 | UL recognized | UL recognized; CSA certified | UL recognized, CSA certified |
| Operating temperature | $\begin{gathered} -55^{\circ} \mathrm{C} \text { to } 85^{\circ} \mathrm{C} \\ {\left[-67^{\circ} \mathrm{F} \text { to } 185^{\circ} \mathrm{F}\right]} \end{gathered}$ | $\begin{gathered} -55^{\circ} \mathrm{C} \text { to } 82^{\circ} \mathrm{C} \\ {\left[-67^{\circ} \mathrm{F} \text { to } 180^{\circ} \mathrm{F}\right]} \end{gathered}$ | $\begin{gathered} -55^{\circ} \mathrm{C} \text { to } 85^{\circ} \mathrm{C} \\ {\left[-67^{\circ} \mathrm{F} \text { to } 185^{\circ} \mathrm{F}\right]} \end{gathered}$ | $\begin{gathered} -55^{\circ} \mathrm{C} \text { to } 125^{\circ} \mathrm{C}\left[-67^{\circ} \mathrm{F}\right. \text { to } \\ \left.257^{\circ} \mathrm{F}\right] \end{gathered}$ |
| Contacts | silver | silver | silver | silver |
| Housing | general purpose phenolic | arc resistant melamine | general purpose phenolic | general purpose phenolic |
| Expected mechanical life | 3,000,000 operations | 100,000 operations | 10,000,000 cycles | 7,000,000 operations |

## LARGE SNAP-ACTION SWITCH ACCESSORIES

Brackets

| Description | 8MA1 | 8MA2 | 17MA1-B |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
| Description | Adjustable mounting bracket with adjustment slot on left | Adjustable mounting bracket with adjustment slot on right | Conversion mounting bracket |
| Housing material | Steel | Steel | Corrosion-resistant metal |
| Measurements | $60,2 \mathrm{~mm} \mathrm{~W} \times 21,3 \mathrm{~mm} \mathrm{H} \times 7,4 \mathrm{~mm} \mathrm{D}$ [2.37 in $\mathrm{W} \times 0.84 \mathrm{in} \mathrm{H} \times 0.29 \mathrm{in} \mathrm{D}]$ |  | $\begin{gathered} 66,8 \mathrm{~mm} \mathrm{~W} \times 19,0 \mathrm{~mm} \mathrm{D} \\ {[2.63 \mathrm{in} \mathrm{~W} \times 0.75 \mathrm{in} \mathrm{D]}} \end{gathered}$ |
| Features | sturdy plated steel construction; fast, easy screwdriver adjustment; can be used with all standard basic switches |  | converts standard basic switches from side to top mount; corrosion resistant; snaps into switch mounting holes without tools |

## Die-cast Zinc Enclosures

| Description | 3PA1 | 3 3PA28 | 3 PA2 |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
| Description | mounted from either side through 3,55 mm [ 0.140 in ] dia. holes on $25,4 \mathrm{~mm}$ [1.0 in] centers; conduit/hub 0.5-14 NPT internal thread | mounted from either side through 3,55 mm [ 0.140 in ] dia. holes on $25,4 \mathrm{~mm}$ [ 1.0 in ] centers. 1/2-14 NPSM internal thread conduit hub | switch secured in enclosure; two 4,37 mm [0.172 in] dia. holes in flange accept \#8 screws for mounting on 41,3 mm [1.625 in] centers; conduit/hub 0.5 <br> - 14 NPT internal thread |
| Housing material | die-cast zinc enclosure (side mount) | die-cast zinc enclosure (side mount) | die-cast zinc enclosure (flange mount) |
| Measurements | $\begin{gathered} 74,8 \mathrm{~mm} \mathrm{~W} \times 42,9 \mathrm{~mm} \mathrm{H} \times 25,4 \mathrm{~mm} \mathrm{D} \\ {[2.95 \mathrm{in} \mathrm{~W} \times 1.69 \mathrm{in} \mathrm{H} \times 1.00 \mathrm{in} \mathrm{D]}} \end{gathered}$ | $74,8 \mathrm{~mm} \mathrm{~W} \times 42,9 \mathrm{~mm} \mathrm{H} \times 25,4 \mathrm{~mm} \mathrm{D}$ <br> [ 2.95 in $\mathrm{W} \times 1.69$ in $\mathrm{H} \times 1.00$ in D] | $\begin{gathered} 74,8 \mathrm{~mm} \text { W } \times 42,9 \mathrm{~mm} \mathrm{H} \times 25,4 \mathrm{~mm} \mathrm{D} \\ {[2.95 \mathrm{in} \mathrm{~W} \times 1.69 \mathrm{in} \mathrm{H} \times 1.00 \mathrm{in} \mathrm{D]}} \end{gathered}$ |
| Sealing/Features | NEMA 1; IP40; protects the switch from physical abuse and personnel from contact with exposed terminals |  |  |

Plastic Terminal Enclosures

| Description | 5PA1 | 5PA2 | 5PA3 |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
| Description | Plastic terminal enclosure used with solder terminal switches | Plastic terminal enclosure use with screw terminal switches | Plastic terminal enclosure used with either solder or screw terminal switches with auxiliary actuators assembled |
| Housing material | plastic | plastic | plastic |
| Measurements | $\begin{aligned} & 52,8 \mathrm{~mm} \mathrm{~W} \times 16,1 \mathrm{~mm} \mathrm{H} \\ & {[2.08 \mathrm{in} \mathrm{~W} \times 0.64 \mathrm{in} \mathrm{H}]} \end{aligned}$ | $\begin{gathered} 52,8 \mathrm{~mm} \mathrm{~W} \times 20,2 \mathrm{~mm} \mathrm{H} \times 21,0 \mathrm{~mm} \mathrm{D} \\ {[2.08 \mathrm{in} \mathrm{~W} \times 0.80 \text { in } \mathrm{H} \times 0.83 \mathrm{in} \mathrm{D}]} \end{gathered}$ | $\begin{gathered} 52,8 \mathrm{~mm} \mathrm{~W} \times 20,2 \mathrm{~mm} \mathrm{H} \times 21,0 \mathrm{~mm} \mathrm{D} \\ {[2.08 \mathrm{in} \mathrm{~W} \times 0.80 \mathrm{in} \mathrm{H} \times 0.83 \mathrm{in} \mathrm{D]}} \end{gathered}$ |
| Sealing/Features | NEMA 1, IP40; easy to use; screw and solder terminal versions; protect personnel from contact with exposed terminals |  |  |

## OPERATING CHARACTERISTICS

Table 3. Operating Characteristics Definitions

| Characteristic | Plunger or actuator travel from point where contacts "snap-over" to point where they "snap-back." |
| :---: | :---: |
| Differential Travel-DT | Position of switch plunger or actuator when no external force is applied. |
| Free Position-FP | Force required to attain full overtravel of actuator. |
| Full Overtravel Force | Position of switch plunger or actuator at which point contacts snap from normal to operated position. With flex- <br> ible or adjustable actuators, the operating position is measured from the end of the lever or its maximum length. <br> Location of operating position measurement shown on mounting dimension drawings. |
| Operating Position-OP | Amount of force applied to switch plunger or actuator to cause the contact "snap-over." Note in the case of <br> adjustable actuators, the force is measured from the maximum length position of the lever. |
| Operating Force-OF | Plunger or actuator travel safely available beyond operating position. |
| Overtravel-OT | Distance or angle traveled in moving plunger or actuator from free position to operating position. |
| Pretravel-PT | Amount of force still applied to switch plunger or actuator at the moment contacts snap from operated position |
| Release Force-RF | Distance from actuator free position to overtravel limit position. |
| Total Travel |  |

## ADDITIONAL INFORMATION

The following associated literature is available on the Web at sensing.honeywell.com:

- Product installation instructions
- Product application-specific information
- Sensors and switches for potential HVAC/R applications
- Sensors and switches for valve monitors and valve indicators
- Sensors and switches in oil rig applications
- Sensors and switches in sanitary valves
- Applying basic switches
- Low energy switching guide
- Product range guide

## A WARNING PERSONAL INJURY <br> DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury. <br> Failure to comply with these instructions could result in death or serious injury.

## AWARNING MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.
Failure to comply with these instructions could result in death or serious injury.

## WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell website, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

## Find out more

Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office.
